Telecom, Media & Technology

Wiley Rein has the largest Telecom, Media & Technology (TMT) law practice in the country with more than 60 attorneys and engineers engaged full time in the practice. The TMT practice encompasses virtually all aspects of the federal, state, and international laws governing the telecommunications, media, and technology industries. Our team is committed to understanding the implications of technology and industry changes for our clients, as evidenced by our team of engineers who are integrated into our legal and policy capabilities.

The TMT practice has extensive familiarity with the government institutions that shape and administer all manner of communications regulations and policies. Our professionals include individuals who have occupied high-level positions at the Federal Communications Commission (FCC), the U.S. Department of State, the U.S. Department of Commerce, as well as on Capitol Hill. These include a former Chairman of the FCC, two former FCC Commissioners, a former FCC General Counsel, a former FCC Media Bureau Chief as well as the former U.S. Coordinator for International Communications and Information Policy (Ambassador). Others have had firsthand experience working in telecommunications firms, media companies, and the advertising industry. This experience is enriched by the insights and creativity of veteran specialists in the laws governing wireless and wireline telecom carriers, equipment manufacturers, Internet firms, broadcasters, programmers, cable and satellite operators, content producers, print media, financial institutions, and other investors.

Areas of Specialty

The size and experience of Wiley Rein’s TMT practice enables us to handle the full scope of telecommunications, wireless, litigation, international, satellite, and media issues from headline-setting, billion-dollar mergers to business disputes and regulatory initiatives. At the same time, our flexible structure allows us to make use of small teams or single attorneys to serve all of our clients in a cost-effective, efficient, and creative manner.
